

# **Carbon farming certification and rewarding mechanisms in the agricultural sector BRUSSELS, January 25<sup>th</sup>, 2023**

The LIFE Carbon Farming project (2021-2027) involves partners from France, Belgium, Germany, Ireland, Italy and Spain. It aims at building a European common framework to develop result-based funding mechanisms by rewarding farmers implementing low carbon practices. Several actions will be put in place by 2027.

**The LIFE Carbon Farming team** invites to a workshop  
on **January 25<sup>th</sup>, 2023 - 9:30 am to 5:00 pm**  
**Brussels** - Universitaire Stichting - Fondation Universitaire  
- Egmontstraat/ Rue d'Egmont 11

---

## **Agenda of the day**
